- rash

If an allergic reaction occurs, stop use and seek medical help right away.

**Do not use** if you are allergic to chlorhexidine gluconate or any other ingredient in this product

#### When using this product

- do not touch the eye with hands that have been treated with this preparation
- keep out of eyes, ears, and mouth. May cause serious and permanent eye injury if permitted to enter and remain in the eye.
- if contact occurs, rinse with cold water right away
- do not use routinely if you have wounds which involve more than the superficial layers of the skin

**Stop use and ask a doctor if** irritation, sensitization, or allergic reaction occurs. These may be signs of a serious condition

**Keep out of reach of children.** If swallowed, get medical help or contact a Poison Control Center right away.

#### **Directions**

• use with care in premature infants or infants under 2 months of age. These products may cause irritation or chemical burns.

#### Surgical hand antiseptic

- apply to clean, dry hands and nails. For the first use of each day, clean under nails with a nail stick.
- dispense one pump (2 mL) into the palm of one hand
- dip the fingertips of the opposite hand into the lotion and work it under the nails
- spread the remaining lotion over the hand and up to just above the elbow
- using another 2 mL of lotion, repeat with the other hand
- dispense another 2 mL of lotion into either hand; reapply to all aspects of both hands up to the wrists
- allow to dry before donning gloves

#### Healthcare personnel hand antiseptic

- apply to clean, dry hands and nails
- dispense one pump (2 mL) into the palm of one hand
- paying particular attention to the spaces between the fingers and under fingernails, apply the lotion evenly to cover both hands up to the wrists
- allow to dry without wiping

#### Other information

store at 20-25°C (68-77°F)
