Packaging Label - Carton

LINHART TOOTH PASTE represents a dental science breakthrough, triple enamel protection known as Linämel™, which has three essential ingredients:

Theobromine is an extract of the cocoa bean and may help strengthen tooth structure. The amount of Theobromine in LINHART Toothpaste matches the amount found in the finest imported chocolates.

Fluoride remineralizes and protects tooth enamel from acid attacks that cause decay. It is a hallmark of modern dental care.

Xylitol is a naturally occurring sugar that prevents tooth decay by keeping the mouth at a neutral pH level. In addition, the age old healing extract of **Aloe Vera** is included in the formulation to help soothe and heal gums.
