

PETCO - roundworm de-wormer for dogs liquid

Petco

Disclaimer: This drug has not been found by FDA to be safe and effective, and this labeling has not been approved by FDA. For further information about unapproved drugs, [click here](#).

Drug Facts

Active Ingredient

per each teaspoon (5ml)..... 250mg Piperazine base as Piperazine Citrate

Use

Effective against large roundworms (*Toxocara canis* and *Toxascaris leonina*)

Warnings

Do not de-worm a puppy under six weeks of age. Never de-worm a sick puppy or dog. Consult your veterinarian in the diagnosis, treatment and control of parasitism. Not recommended for dogs under 5lbs. Not recommended for pregnant or nursing females. Pets over 1 year old should have a recent negative heartworm blood test before de-worming. A veterinarian should diagnose roundworms prior to treatment. Keep this product out of reach of children and pets to avoid unintended consumption.

Cautions

Although Piperazine has a high degree of safety, an occasional animal may show nausea, vomiting or muscular tremors. Such side effects are usually associated with over dosage, therefore, the recommended dosage should be followed carefully. If symptoms occur, consult a veterinarian immediately. Keep closed when not in use. Keep this product out of reach of children and pets to avoid unintended consumption.

Directions

Using the dosage cup enclosed, administer as follows::

Treatment should be given shortly after pet has eaten or with food. Dosage may be fed directly or added with food. For multiple pet households, feed directly to individual pet to ensure proper dosage.

Dogs and Puppies (6 weeks and older): 1 tsp. per 10lbs. of body weight.

After initial dose on day one, do not administer again until day 10. On day 10, repeat initial dose. PETCO* Roundworm De-wormer should only be used when dog has been shown to have roundworms - should not be used as a monthly preventative.

Other Information

Store between 20C-25C (68F-77F)

Inactive Ingredients
