stop hair

HAIR REDUCING SPRAY

STOPHAIR is a blend of natural ingredients, including plant extracts, and may assist in naturally minimising hair regrowth over time, potentially eliminating the need for the continual use of intrusive, expensive and time-consuming methods of hair removal.

DIRECTIONS FOR USE

Apply STOPHAIR directly onto the skin twice a day (morning and night) for 5 consecutive days after hair removal, and continue once a day thereafter. Repeat this process every time after hair removal.

STOPHAIR can be used with any conventional method of hair removal, including waxing, laser, shaving, depilatory creams and electrolysis. Use only as directed. Perform a 48 hour patch test prior to use. If irritation occurs, discontinue use.

125 ml/4.30 fl. oz.
