Benzoyl Plus™ Shampoo

***Patented Continuous
Moisture Release***

INDICATIONS:

Indicated for topical therapy of pyoderma, folliculitis and seborrhea complex. May be used as a moisturizing, antiseptic shampoo for routine use as directed by your veterinarian. For pretreatment cleansing, Micro Pearls® Advantage Hydra Pearls™ Shampoo may be used prior to the application of Benzoyl Plus™.

DESCRIPTION:

Micro Pearls® Advantage Benzoyl Plus™ is a remarkable breakthrough in animal health care technology. Benzoyl Plus™ contains microtargeted Novasome® microvesicles and the recognized bacteria fighting ingredient benzoyl peroxide. The Novasome® microvesicles are designed to deliver long lasting moisture to the hair shafts and epidermal layers. These microvesicles counteract the drying effect of an oxidizing benzoyl peroxide shampoo. Safe for use on dogs and cats.

DIRECTIONS:

Remove foil seal prior to use. Shake well. Wet coat thoroughly before applying shampoo. Work into coat until a mild lather is produced. Allow to stand for 10-15 minutes. Rinse thoroughly. Benzoyl Plus Shampoo may be used daily or weekly as directed by your veterinarian. As with any medicated shampoo, gloves should be worn when applying this product.

INGREDIENTS:

Contains 2.5% benzoyl peroxide in a mild shampoo base containing water, decyl polyglucose, glycerin, carbopol, tocopheryl acetate, NM7, sodium hydroxide.

CAUTIONS:

For topical use only on dogs and cats. Avoid contact with eyes and mucous membranes. Discontinue use if skin becomes irritated or inflamed. Systemic antibiotic treatment may be indicated if condition does not improve. Store at room temperature. May bleach or stain carpets and fabric if dog or cat is not thoroughly rinsed.

KEEP OUT OF REACH OF CHILDREN. FOR ANIMAL USE ONLY.

Novasome® is a registered trademark of Micro Pak, Inc.
