READ AND UNDERSTAND ALL INSTRUCTIONS BEFORE USING THIS PRODUCT

FIRST AID

Contact with product can cause irritation to eyes. Avoid contact with eyes.

Eye Contact: Flush with water. Remove contact lenses, if present, after first 5 minutes. Then continue rinsing. Get immediate medical attention.

If Swallowed: Do not induce vomiting. If victim is fully conscious, give a cupful of water. Never give anything by mouth to an unconscious person. Get immediate medical attention.

STORAGE AND DISPOSAL

THOROUGHLY RINSE ALL MEASURING DEVICES AND STORE OUT OF REACH OF CHILDREN. Avoid contact with food or feed. Avoid storing near heat or open flame. Keep container tightly closed when not in use. If product has frozen, thaw in a warm room and shake well before use. Do not reuse empty container. Rinse empty container before disposing of in a safe manner. Do not store in direct sunlight. **Store this product in an area where temperatures are less than 95 deg F.**

CHEM-TREC EMERGENCY NUMBER 1-800-424-9300

Not For Human Use

Additional Information on Material Safety Data Sheet

GENERAL INSTRUCTIONS

- **Triumph** is a teat dip formulated for use during adverse weather conditions to provide a maximum level of skin conditioning with the power of 1% iodine.
- Use **Triumph** when the weather and environment are a challenge to herd health and

teat skin condition.

- Consult a veterinarian before starting or continuing to use teat dip if cow's teats are sore or chapped.
- Discard any teat sanitizing solution that becomes dirty or contaminated for any reason.
- Do not use teat dip for cleaning and/or sanitizing of dairy equipment.
- Do not pour used teat dip back into original container.
- Good dairy practices suggest the thorough cleaning and sanitizing of teats before milking to avoid contamination and assist in the control of mastitis.
- Thoroughly clean and sanitize teat dip foaming cup before each milking. Use fresh teat dip for each milking.
- When switching from another teat dip to **Triumph®**, or vice versa, all lines, storage tanks, or other equipment should be thoroughly rinsed in between products to avoid any clogging risk.

POST-DIPPING

- Use **Triumph** sanitizing teat dip **undiluted**.
- Immediately after removing milking unit, dip or spray teats with **Triumph** teat sanitizer. Apply an ample coat to each teat.
- If outside temperature is below freezing, allow **Triumph** sanitizing teat dip to air dry on cow's teats before cow leaves the parlor, or allow teat dip to remain on cow's teats for one minute, then dry teats with a single-service paper towel.
- **Failure to follow these directions may result in frozen teats and injured animals.**
