Nestabs One

DESCRIPTION: Nestabs® One is a prescription prenatal multi-vitamin/mineral in the form of a purple, opaque softgel capsule imprinted “ONE” for oral administration.

Each NESTABS® ONE Softgel contains:

Vitamin C (as calcium ascorbate) 18 mg
Vitamin D (as cholecalciferol) 6.25 mcg
Vitamin E (as d-alpha tocopheryl acetate) 10 mg
Vitamin B6 (as pyridoxine HCl) 30 mg
Folate (as (6S)-5 1 mg DFE*
-methyltetrahydrofolate -Quatrefolic®) ‡
Vitamin B12 (as cyanocobalamin) 15 mcg
Iron (as carbonyl iron and ferrous 38 mg
bis-glycinate chelate -Ferrochel®) ††
Zinc (as zinc oxide) 20 mg
Magnesium (as magnesium oxide) 15 mg
DHA (Docosahexaenoic Acid from Algal Oil) 225 mg
*Dietary Folate Equivalent (DFE)

Other Ingredients: Gelatin capsule (bovine gelatin, glycerin, purified water, titanium dioxide, FD&C Red #40, FD&C Blue #1), soy lecithin, docusate sodium, white beeswax. Contains Soy.

INDICATION AND USAGE: Nestabs® One is a prescription prenatal multi-vitamin/mineral supplement with DHA that can be taken throughout pregnancy and during the postnatal period for both lactating and non-lactating mothers. Nestabs® One may also be useful in improving the nutritional status of women prior to conception. The usual dose is one softgel daily, or as directed by a physician.

CONTRAINDICATIONS: This product is contraindicated in patients with a known hypersensitivity to any of the ingredients.

WARNING: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6 years of age. **KEEP THIS PRODUCT OUT OF THE REACH OF CHILDREN.** In case of accidental overdose, call a doctor or poison control center immediately

WARNINGS: Ingestion of more than 3 grams of omega-3 fatty acids per day has been shown to have potential antithrombotic effects, including increased bleeding time and

INR.

Administration of omega-3 fatty acids should be avoided in patients on anticoagulants and in those known to have an inherited or acquired bleeding diathesis.

Folic acid alone is improper therapy in the treatment of pernicious anemia and other megaloblastic anemias where vitamin B12 is deficient.

PRECAUTIONS: Folic acid in doses above 0.1mg daily may obscure pernicious anemia in that hematologic remission can occur while neurological manifestations remain progressive.

ADVERSE REACTIONS: Allergic sensitization has been reported following both oral and parenteral administration of folic acid.

DOSAGE AND ADMINISTRATION: One softgel taken orally each day, or as directed by a physician.

STORAGE: Store between 15-30°C (59°-86°F). Protect from extreme temperatures. Freezing & excessive heat may damage softgels.

HOW SUPPLIED: Nestabs® One softgels for oral administration are supplied in child resistant bottles containing 30 softgels, Item 50967-410-30 and as professional samples, Item 50967-410-03.
