

**SALICYLIC ACID- wart remover gel gel**  
**Walgreen Company**

-----  
**Walgreens Wart Remover Gel**

***Active ingredient***

Salicylic acid 17%w/w

***Purpose***

Wart remover

***Uses***

- for the removal of common and plantar warts. The common wart is easily recognized by the rough 'cauliflower-like' appearance of the surface.
- Plantar wart is recognized by its location only on the bottom of the foot, its tenderness and the interruption of the footprint pattern.

***Warnings***

**For external use only.**

**Flammable**

keep away from fire and flame

**Do not use**

- on moles, birth marks and warts with hair growing from them
- on mucous membranes such as nose, anus, genitals and lips
- on irritated, infected or reddened skin
- on genital warts and warts on the face
- if you are diabetic or have poor blood circulation, except under the advice and supervision of a doctor or podiatrist

**When using this product**

- if product gets into the eyes, flush with water for 15 minutes
- avoid inhaling vapors

**Keep out of reach of children.**

If swallowed, get medical help or contact a Poison Control Center right away.

**if discomfort persists**

see your doctor or podiatrist.

***Directions***

- after washing affected area, soak wart in for 5 minutes in comfortably warm water
- dry area thoroughly
- apply one drop of gel at a time to sufficiently cover each wart
- let dry
- repeat this procedure once or twice daily (until wart is removed) for up to 12 weeks

***Other information***

store between 59°F to 86°F (15°C to 30°C)

***Inactive ingredients***

camphor, castor oil, ethyl acetate, hydroxypropyl cellulose, hypophosphorous acid, isopropyl alcohol, nitrocellulose, polysorbate 80, SDA 3C ethyl alcohol
