

**API FUNGUS CURE- acriflavine liquid**  
**MARS FISHCARE NORTH AMERICA, INC.**

*Disclaimer: This drug has not been found by FDA to be safe and effective, and this labeling has not been approved by FDA. For further information about unapproved drugs, click here.*

-----  
**Drug Label**

**BENEFITS**

Works quickly to treat fungal infections including: eye and mouth fungus and fin and tail rot.

**WHEN TO USE**

Use at the first sign of fungal infections.

It also helps prevent the growth of fungus on eggs prior to hatching.

**DIRECTIONS**

Remove activated carbon from filter and continue aeration.

**Use dosing cap on bottle.**

Add 5 ml per 5 U.S. gallons (19 L) of aquarium water.

Repeat dose after 48 hours. Wait another 48 hours then change 25% of the aquarium water and add fresh activated carbon.

NOTE: This product will cause a harmless green color in the aquarium: the color will be removed by adding activated carbon or API BIO-CHEM ZORB filtration media 48 hours after final treatment.

This product can be used in conjunction with API antibacterial remedies.

Not for human consumption or for the treatment of fish intended for human consumption.

Keep out of reach of children.

Contains: 0.4% Acriflavine

Water Problem

Solving

4 FL OZ (118 mL)

Treats up to 118 U.S. Gallons (447 L)

of fresh water

The image shows the packaging for API Fungus Cure. The top half is blue with the API logo. Below that is a yellow section with 'FUNGUS CURE' in large blue letters. A red banner says 'RAPIDLY TREATS FUNGAL FISH DISEASE'. Below this are three illustrations of fish with different ailments: 'Mouth Fungus', 'Fungus', and 'Fin & Tail Rot'. At the bottom left is a 'GUIDE Water Problem Solving' logo. At the bottom right, it says '4 FL OZ (118 ml) Treats up to 118 U.S. gallons (447 L) of fresh water'.
