CVS Bite and Sting Relief Stick

First aid to help prevent infection in minor cuts, scrapes, and bumps.

Drug Facts

Active ingredients

Active ingredients

Benzocaine 5%

Camphor 3.0%

Phenol 1.35%

Purpose

Analgesic, Anesthetic, Antipruritic

First Aid Antiseptic

External Analgesic

Uses

First aid to help prevent infection in minor cuts, scrapes, and bumps.

Warnings

For external use only.

When using this product

■ Do not get in eyes ■ Do not apply over large areas of the body

■ In case of deep or puncture wounds, animal bites or serious burns consult a doctor. ■ Do not bandage.

Stop use and ask doctor if condition worsens, or symptoms persist for more than 7 days or clear up and occur again within a few days. Do not use longer than one week unless directed by doctor.

Keep out of reach of children. If swallowed, get medical help or contact a poison control center right away. If in eyes, flush with water for 15 minutes and call a physician.

Directions

■ Clean area ■ Apply a small amount to the bite area while massaging with sponge tip applicator. If itching persists, apply again in 10-15 minutes ■ For ticks and bees, remove tick or stinger before treatment ■ Adults and children 2 years and over: Apply to affected area 1 to 3 times daily ■ Children under 2 years: Consult a doctor

Inactive ingredients

Propylene Glycol
