Pulsatilla Pratensis 6C HPUS*

Sepia Officinalis 6C HPUS*

*"HPUS" indicates the active ingredients are in the official Homeopathic Pharmacopeia of the United States.

Kreosotum 6C HPUS*

Nitricum Acidum 6C HPUS*.....Vaginal Itching and Irritation

Thuja Occidentalis 6C HPUS*

Pulsatilla Pratensis 6C HPUS*.....Vaginal Odor

Sepia Officinalis 6C HPUS*.....Vaginal Discharge

*"HPUS" indicates the active ingredients are in the official Homeopathic Pharmacopeia of the United States.

Uses for the temporary relief of symptoms of bacterial vaginosis due to bacterial imbalance in the vagina including unusual vaginal odor, itching, irritaiton, or abnormal discharge. Claims based on traditional homeopathic practice, not accepted medical evidence. Not FDA evaluated.

For Vaginal Use Only

Do not use

- with other vaginal suppositories
- during menstruation or with use of a tampon

Ask a doctor before use if you have

- **vaginal itching and discomfort for the first time**
- **lower abdominal, back or shoulder pain, fever, chills, nausea, vomiting, or foul smelling vaginal discharge. You may have a more serious condition.**
- been exposed to the human immunodeficiency virus (HIV) that causes AIDS or any other sexually transmitted disease.

Stop use and ask doctor if

- symptoms do not get better in 7 days

- symptoms last more than 14 days
- you get a rash or hives, abdominal pain, fever, chills, nausea, vomiting, or foul smelling vaginal discharge

If pregnant, trying to conceive, or breastfeeding consult your doctor before use.

Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center (1-800-222-1222) right away.

Directions

- Wash hands before use
- When the vaginal area is clean and dry, use either your finger or provided applicator to insert capsule as far as is comfortable
- **Adults 18 years of age and over:** insert one suppository into the vagina every 3 days as needed before bedtime to relieve symptoms of bacterial vaginosis and to support vaginal flora.
- **Under 18 years of age:** consult a doctor

Other information

- tamper resistant for your protection. Use only if safety seal is intact.
- do not purchase if carton is open

Storage instructions

Does not require refrigeration, and best to store in a cool, dry place at a temperature of 15-30 C (50-86 F).

vaginal homeopathic suppository

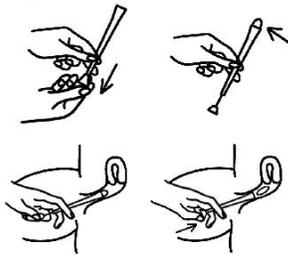

INDICATIONS FOR USE

BiopHresh® offers efficacious homeopathic remedies for bacterial vaginosis. In a base of the most prevalent strains of vaginal lactobacilli, BiopHresh® helps restore healthy vaginal flora.

DIRECTIONS

Wash hands before use. When vaginal area is clean and dry, insert the capsule using your index finger or the provided applicator. Make sure the applicator is clean and dry before reusing. Adults 18 years of age and over: insert one suppository into the vagina every 3 days as needed before bedtime to relieve symptoms of bacterial vaginosis and support vaginal flora. Repeat for up to 7 days or as instructed by your doctor. Under 18 years of age: Consult a doctor.

Wash the applicator in hot soapy water and allow to air dry. Make sure that the applicator is clean and dry before reusing.

FREQUENTLY ASKED QUESTIONS

HOW DOES BIOPHRESH® WORK?

BiopHresh® Vaginal Homeopathic Probiotic Suppository helps relieve symptoms of bacterial vaginosis, promotes urinary tract health and supports healthy vaginal flora. It combines homeopathic remedies with Bio-Match® strains of lactobacilli found in the vaginal tract.

A healthy vaginal biome is an acidic environment with one of the lowest pH ranges in the body. BiopHresh® homeopathic formulation, based in a lactobacilli substrate, promotes a healthy microbial vaginal ecosystem.

HOW IS BIOPHRESH® DIFFERENT FROM OTHER VAGINAL SUPPOSITORIES?

BiopHresh® provides an advanced homeopathic formulation, designed to reestablish optimal vaginal conditions. BiopHresh combines the most prevalent strains of vaginal lactobacilli to help restore healthy vaginal flora.

Undesirable bacteria do not thrive in an acidic environment. BiopHresh® contains patented strains that produce lactic acid and hydrogen peroxide (H₂O₂) and have been shown in clinical studies to lower vaginal pH, creating a mildly acidic condition and promoting a healthy microbial environment.
