Other information

Store below 105 F (40C)

May discolor certain fabrics

Harmful to wood finishes and plastics

Inactive ingredients

Purified water (Aqua), vegetable glycerin and carboxymethyl cellulose

for the 1,000 lt label

Firefighting CAUTION: all these products have a very low flash point: use water spray when fighting fire may be inefficient: CAUTION: Alcohol-resistant foam should be used. SMALL FIRE: Dry Chemicals, CO₂, water spray or alcohol-resistant foam. LARGE FIRE: Water spray, fog or alcohol resistant foam. Do not use straight streams. Move containers from fire area if you can do it without risk. FIRE INVOLVING TANKS OR CAR/TRAILERS LOADS: Fight fire for maximum distance or use unmanned hose holders or monitor nozzles: Cool containers with flooding quantities of water until well after fire is out. Withdraw immediately in case of rising sound from venting safety devices or discoloration of tank. ALWAYS stay away from tanks engulfed in fire. For massive fire, use unmanned hose holders or monitor nozzles; if this is impossible. Withdraw from area and let the fire burn.

*Keep in original container and away from heat, open flames, combustible materials and hot surfaces. - No Smoking - Harmful if Swallowed

First Aid EYES: First check the victim for contact lenses and remove if present. Flush victim's eyes with water or normal saline solution for 20 to 30 minutes while simultaneously calling a hospital or poison control center. Do not put any chemicals, oils, or medication in the victim's eye without specific instructions from a physician. IMMEDIATELY transport the victim after flushing eyes to a hospital even if no symptoms (such as redness or irritation) develop. INGESTION: DO NOT INDUCE VOMITING. Volatile chemicals have a high risk of being aspirated into the victim's lungs during vomiting which increases the medical problems. If the victim is conscious and not convulsing, give 1 or 2 glasses of water to dilute the chemical and IMMEDIATELY call a hospital or poison control center. IMMEDIATELY transport the victim to a hospital. If the victim is convulsing or unconscious, do not give anything by mouth, ensure that the victim's airway is open and lay the victim on his/her side with the head lower than the body. DO NOT INDUCE VOMITING. IMMEDIATELY transport the victim to a hospital. Firefighting CAUTION: All these products have a very low flash point. Use of water spray when fighting fire may be inefficient. CAUTION: Alcohol-resistant foam should be used. SMALL FIRE: Dry chemical, CO₂, water spray or alcohol-resistant foam. LARGE FIRE: Water spray, fog or alcohol-resistant foam.
