Disclaimer: Most OTC drugs are not reviewed and approved by FDA, however they may be marketed if they comply with applicable regulations and policies. FDA has not evaluated whether this product complies.

Rejuvaderm medispa Fading

Active Ingredient: 2% hydroquinone

Also contains: Glycolic acid, Sodium metabisulfite, Kojic acid, Sodium Bisulfite.

Use: lightens discolorations

Directions: adults: apply a thin layer on the affected area twice daily or as directed by a doctor. If no improvement is seen after 3 months of treatment, use of this product should be discontinued. Lightening effect of this product may not be noticeable when used on very dark skin. Avoid unnecessary sun exposure and use a sunscreen while using and after using this product to prevent darkening from reoccurring.

Warnings: For External Use Only. Avoid contact with eyes. If contact occurs, rinse eyes thoroughly with water. Some users of this product might experience a mild skin irritation. If skin irritation becomes severe, stop use and consult a doctor. Do not use on children under 12 years of age unless directed by a doctor. If pregnant or breast-feeding, ask a health professional before use. Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.

Sunburn Alert: This product contains an alpha hydroxy acid (AHA) that may increase your skin's sensitivity to the sun and particularly the possibility of sunburn. Use a sunscreen, wear protective clothing, and limit sun exposure while using this product and for a week afterwards.

Purpose: Skin Bleaching

Keep out of reach of children.
