## **Skin Doctors™ Photo Age Reverse™ Night Serum**

Scientifically shown to reverse years of visible premature ageing including wrinkles, sun spots and imperfections while you sleep.

**Problem** - Everyday exposure to sunlight accounts for up to 80% of the signs of premature skin ageing. Many of these signs of 'photo-ageing' can begin to develop as early as in our 20's.

**Solution** - Skin Doctors™ Photo Age Reverse™ Night Serum contains the revolutionary ingredient Venuceane. Rigorous tests under extreme UV exposure showed that it can reverse some of the worst signs of ageing caused by the sun. It was also seen to prevent the appearance of further photo-ageing of skin.

**Result** - With regular use, Skin Doctors™ Photo Age Reverse™ Night Serum dramatically reduces the visible signs of premature ageing including existing wrinkles, spots and imperfections. It also helps prevent future visible skin ageing so you look younger for longer. In fact tests showed it could save up to 7 years of sun damage in just months.

| <b>ACTIVE INGREDIENTS:</b>  | <b>PURPOSE</b> |
|-----------------------------|----------------|
| Thermus Thermophilus Lysate | 4.75% w/w      |
| Glycerin                    | 0.25% w/w      |
|                             | OTC            |

## **INACTIVE INGREDIENTS**

Water, Methyl Gluceth-20, Polyoxyl 40 Hydrogenated Castor Oil, Polysorbate 20, Propylene Glycol, Diazolidinyl Urea, Methylparaben, Propylparaben, Xanthan Gum, Fragrance.

## **DIRECTIONS**

In the evening, after cleansing, apply 4-6 drops of serum to face and neck. Massage in, allowing serum to fully absorb. Use Skin Doctors™ Photo Age Reverse™ cream in the morning for optimum results.

## **Warnings/Cautions**

For external use only.

Keep out of reach of children.

Store below 30°C

**Inverse pendant votre sommeil** les signes du vieillissement précoce dont les rides, les taches de soleil ainsi que les imperfections. Testé scientifiquement.

**Le problème** - Jusqu'à 80 % des signes du vieillissement précoce de la peau sont provoqués par une exposition quotidienne aux rayons du soleil. La plupart de ces signes provoqués par le « photovieillissement » peuvent commencer à se développer dès vos vingt ans.

**La solution** - Photo Age Reverse contient un ingrédient révolutionnaire, le Venuecane. Des tests rigoureux réalisés dans des conditions d'exposition extrêmes aux rayons UV ont révélé sa capacité à inverser certains symptômes les plus ravageurs du vieillissement provoqué par le soleil. Il est également capable d'empêcher l'apparition du photovieillissement futur de la peau.

night serum  
photo age  
reverse™

reverses the signs of sun  
ageing while you sleep

**Le résultat** - Appliqué régulièrement, Photo Age Reverse réduit sensiblement les signes visibles du vieillissement précoce dont les rides, les taches solaires et les imperfections. Il permet également d'éviter le vieillissement futur de la peau et de conserver ainsi sa jeunesse plus longtemps. En fait, les tests ont démontré que vous pouvez gagner 7 années de vieillissement cutané en seulement quelques mois.

**MODE D'EMPLOI**: Le soir, sur peau propre, appliquez 4 à 6 gouttes de sérum sur votre visage et cou. Massez pour faciliter l'absorption complète. Le matin, appliquez la crème Photo Age pour de meilleurs résultats.

Conserver à moins 30°C.
