Oil-free, feather-light lotion to hydrate while reducing shine. Use in conjunction with MediBac Clearing® products to help combat shine and maintain an all-day matte finish. Microspheres work to absorb excess oil on skin while a purifying blend of Niacinamide, Zinc Gluconate, Yeast Extract, Caffeine and Biotin help regulate excess oil production. Help clear congested follicles with Salicylic Acid as Enantia Chlorantha Bark Extract controls over-active oil glands, helping to reduce oily shine on skin's surface.

Formulated without artificial fragrances, colors or parabens. Product guaranteed when professionally recommended.
