DRUG FACTS

SALICYLIC ACID 1% WITH ACNE MEDICATION

Acne medication

- For the treatment and management of acne
- reduces the number of acne pimples and blackheads and allows the skin to heal
- helps to prevent new acne pimples from forming

FOR EXTERNAL USE ONLY

Allergy alert:

do not use this product if you have a known allergy to salicylic acid.

- Cleanse the skin thoroughly before applying medication
- use the pad to wipe the entire affected area
- repeat with a clean pad as necessary to remove remaining traces of dirt, because excessive drying of the skin may occur, start with one application

daily, then gradually increase to two to three times daily as needed or as directed by a doctor

- if bothersome dryness or peeling occurs, reduce application to once a day or every other day
- do not leave pad on skin for an extended period of time
- keep away from eyes, lips and other mucous membrane

using other topical acne medications at the same time or immediately following use of this product may increase

dryness or irritation of the skin. If this occurs , only one medication should be used unless directed by doctor.

If swallowed get get medical help or contact a posion control center right away.
