CLXderm™

**ClxDerm™ 4% chlohexidine
digluconate antiseptic shampoo**
for dogs and cats

Warning: Keep out of reach of children.

Properties:

ClxDerm™ 4% chlohexidine digluconate antiseptic shampoo designed for cleansing the skin of dogs and cats. Chlorhexidine, the active ingredient in ClxDerm™ shampoo 4%, has been proven effective against a broad-spectrum of micro-organisms sensitive to chlorhexidine. The use of ClxDerm™ 4% chlohexidine digluconate antiseptic shampoo will aid in the management of skin infections, supporting a healthy skin barrier.

Directions for use: Wet your pet with warm water and apply shampoo. Massage into wet haircoat. Allow to remain on haircoat for 5-10 minutes before rinsing thoroughly with clean water. Repeat as needed. To improve skin condition, shampoo 1 to 2 times per week in a 1 to 2 week period, or as directed by your veterinarian. To maintain healthy skin, shampoo at least once per month or as directed by your veterinarian.

Precautionary statements:

For external use on dogs and cats only. May cause skin or eye irritation. Avoid getting shampoo in your pet's eyes. In case of contact with eyes, rinse thoroughly with water and consult a veterinarian. If skin irritation occurs and persists, discontinue use and contact your veterinarian. Consult a veterinarian before using on pregnant, lactating or breeding animals; puppies; kittens; or animals with a pre-existing medical condition. Use with caution in older animals. If an animal has an adverse reaction to treatment, discontinue use and contact your veterinarian.

Storage: Store at room temperature. Do not freeze.

Composition:

Active ingredient(s):

Chlorhexidine digluconate 4%.

Inactive ingredient(s): deionized water, fragrance, glycerin, hydroxypropyl guar, isodecyl alcohol ethoxylate, lanolin ethoxylated, lauramine oxide, myristamine oxide propylene glycol, Tris-EDTA.

Indications:

For use on dogs and cats only to maintain healthy skin and hair and to enhance hygiene. Aids in the management of skin infections associated with micro-organisms that are sensitive to chlorhexidine.
