Uses

- treats vaginal yeast infections
- relieves external itching and irritation due to vaginal yeast infection

Warnings

For vaginal use only.
Do not use if you have never had a vaginal yeast infection diagnosed by a doctor. This Yeast Treatment may damage condoms and diaphragms and cause them to fail.

Ask a doctor before use if you have:

- vaginal itching and discomfort for the first time
- abdominal, back or shoulder pain, fever, chills, nausea, vomiting, foul-smelling discharge. You may have a more serious condition.
- vaginal yeast infections often (such as once a month or three in six months). You could be pregnant or have a serious underlying medical cause for your symptoms, including diabetes or a weakened immune system.
- been exposed to the human immunodeficiency virus (HIV) that causes AIDS
- are under 12 years of age

When using this product

- do not use tampons, douches, spermicides, or other vaginal products. Condoms and diaphragms may be damaged and fail to prevent pregnancy or sexually transmitted diseases (STDs).
- do not have vaginal intercourse
- mild increase in vaginal burning, itching or irritation may occur

Stop use and ask a doctor if:

- symptoms do not improve in 3 days
- symptoms last more than 7 days
- you get a rash or hives, abdominal pain, fever, chills, nausea, vomiting, foul-smelling discharge

If pregnant or breast-feeding, ask a health professional before use.
Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.

Directions

- before using this product, read the enclosed instructions for complete directions and information
