THYROCRYN™
POWDER

A palatable supplement for the correction of conditions associated with hypothyroidism in horses and ponies

WARNING: Federal law restricts this drug to use by or on the order of a licensed veterinarian

Not for Use in Humans • Keep Out of Reach of Children

INDICATIONS:

For use in horses and ponies for correction of conditions associated with low circulating thyroid hormone (hypothyroidism).

DOSAGE:

Doses should be individualized and animals should be monitored daily for clinical signs of hyperthyroidism or hypersensitivity. Suggested initial doses are 1-10 mg levothyroxine sodium (T₄)/100 lb body weight (2-20 mg/100 kg) once per day or in divided doses. Response to the administration of Thyrocryn™ Powder should be evaluated clinically every week until an adequate maintenance dose is established. In most horses, this is usually in the range of 35 to 100 mg total daily dose of T₄ (1-3 level tablespoonfuls Thyrocryn™ Powder).

INGREDIENTS:

Each pound (453.6 g) contains:

Levothyroxine Sodium USP 0.22% (1.0 g)

One level teaspoonful contains 12 mg of T₄: one level tablespoonful contains 36 mg of T₄.

WARNING:

Administer with caution to animals with clinically significant heart disease, hypertension or other complications for which a sharply increased metabolic rate might prove

hazardous. Use in pregnant mares has not been evaluated.

STORAGE: Store at controlled room temperature between 15° - 30°C (59° - 86°F). Keep container tightly closed when not in use.

USE ONLY AS DIRECTED

Net Contents:

1 lb (453.6 grams), P0172.FP

10 lb (4.5 kg), P0173.FP

1 lb (453.6 g)
