KEEP OUT OF THE REACH OF CHILDREN

NOT FOR HUMAN USE

AVOID FREEZING: If product is exposed to freezing temperatures, components must be mixed thoroughly prior to use.

WARNING: For external use only. Causes eye irritation. Wash skin thoroughly after handling. Do not mix with bleach or other chlorinated products – will cause chlorine gas.

DISPOSAL: Unused teat dip may be diluted with water and flushed down drain. Do not reuse containers. Empty containers should be thoroughly rinsed with water and taken to a recycling center.

DIRECTIONS FOR USE: Measure equal volumes of **Aztec Gold base and Aztec Gold activator** into a clean dip cup/container and mix until the color is uniform throughout. Do not dilute. Mix only enough product for one milking of the herd. Dip cups should be washed after each milking.

APPLICATION:

Pre-Milking: If teats are visibly dirty, wash and dry teats with a single service towel prior to dipping. Before each cow is milked, dip the teats as far up as possible. Leave **Aztec Gold** Teat Dip on teats for at least 15-30 seconds. Wipe teats dry using a single service towel before milking.

Post-Milking: Immediately after milking, dip teats at least 2/3 their length in **Aztec Gold** Teat Dip. Allow to air dry. DO NOT WIPE. **Aztec Gold** Teat Dip can be used as a post-dip alone, or as a pre and post-milking teat dip.

Always use freshly mixed, full strength Aztec Gold Teat Dip. If product in dip cup becomes visibly dirty, discard contents and fill with fresh Aztec Gold Teat Dip.

Note 1: If teat irritation occurs, discontinue use until irritation subsides. Consult your veterinarian and milking equipment service personnel if irritation persists.

Note 2: The gold color in the mixed product fades with time. At higher temperatures the fading is more rapid. However, this will not affect the efficacy of the product.

Note 3: **Aztec Gold** should be used only with a compatible pre-dip or udder wash.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/ attention.

Not for use in sanitizing dairy equipment. Do not mix with any other teat dip or other product. Avoid contact with food. Store at room temperature. Protect from heat and freezing. Always store away from continuous artificial light or direct sunlight.

Ácido Láctico..... 2.5%
INGREDIENTES INERTES:..... 87.5%
SISTEMA DE acondicionamiento DE LA PIEL:
(contiene glicerina)..... 10.0%
TOTAL:..... 100.0%
ATENCIÓN: Provoca irritación ocular. Lavarse la piel cuidadosamente después de la manipulación. No mezclar con lavandina u otros productos clorados – puede liberar gases.
EN CASO DE CONTACTO CON LOS OJOS: Enjuagar con agua cuidadosamente durante varios minutos. Quitar las lentes de contacto cuando estén presentes y pueda hacerse con facilidad. Proseguir con el lavado. Si la irritación ocular persiste, consultar a un médico.
No se debe utilizar para higienizar el equipo de ordeño. No se debe mezclar con otros selladores de pezones o productos similares. Evite el contacto con los alimentos. Almacenarlo a temperatura ambiente. Protección del calor y la congelación. Almacenarlo siempre alejado de la luz artificial continua o la luz solar directa.
DESCARTAR: El producto que no sea utilizado se puede diluir con agua y ser desechado por el drenaje. Los envases no se deben volver a utilizar. Los envases vacíos se deben enjuagar completamente y ser llevados a un centro de reciclaje.

INSTRUCCIONES DE USO: Mezcle cantidades iguales de Aztec Gold base y Aztec Gold activador en una copa de aplicación limpia hasta que el color dorado sea uniforme. No se debe diluir. Mezcle solamente la cantidad necesaria para un ordeño del rebano. Las copas de aplicación deben lavarse después de cada ordeño.
APLICACIÓN:
PRESELLO/ANTES DEL ORDEÑO: Si los pezones se ven sucios lívelos y séquelos con una toalla de papel desechable antes de la aplicación del producto. Antes del ordeño sumerja completamente los pezones en la copa de aplicación. Deje actuar el presellador Aztec Gold en los pezones por al menos 15-30 segundos. Seque los pezones con una toalla de papel desechable antes del ordeño.
SELLO/DESPUES DEL ORDEÑO: Inmediatamente después del ordeño sumerja al menos dos tercios partes de los pezones o más en la copa aplicadora del Aztec Gold, y déjelos secar al aire libre sin limpiarlos. El baño de pezones del Aztec Gold puede ser usado solamente como sellador después del ordeño, o como presellador y sellador antes y después del ordeño.
Siempre use el producto recién mezclado a la potencia completa. Si el producto en las copas de aplicación se ve sucio deséchelo y respáculolo con producto fresco de Aztec Gold.
Nota 1: Si se presenta una irritación en el pezón interrumpa el uso hasta que la irritación desaparezca. Consulte a su médico veterinario y al técnico de mantenimiento del equipo de ordeño si la irritación persiste.
Nota 2: El color dorado del producto mezclado se desvanece con el tiempo. A temperaturas elevadas el color desaparece más rápidamente; sin embargo este descoloramiento no afecta la eficacia del producto.
Nota 3: El sellador Aztec Gold debe ser utilizado solamente con productos compatibles con el sellador ó el baño de la ubre.
