ERMIDRÀ™ SHAMPOO

Ermidrà™ Zinc gluconate shampoo for dogs and cats

Composition:

Active ingredient(s):

zinc gluconate 2%.

Inactive ingredient(s):

cocamidopropyl betaine, deionized water, epilobium, glycolic extract of sage, perfumed essences, PEG-2 stearate, preservatives (2-Bromo-2-nitropropane -1,3-diol Methylisothiazolinone Methylchlorisothiazolinone, Methylparaben), silicone emulsions, sodium chloride, sodium hydroxide, sodium laureth sulfate, whey.

Directions for use:

Completely wet the haircoat of the animal with lukewarm water. Apply the product and gently massage into the fur for at least 5 minutes. Rinse and dry the animal. Repeat 2-3 times a week initially until irritation resolves.

Precautionary statements:

For external use on dogs, puppies and cats only. May cause eye irritation. Avoid contact with eyes. If in eyes: rinse cautiously with water for several minutes. Consult a veterinarian before using on pregnant, lactating or breeding animals; or animals with a pre-existing medical condition. Use with caution in older animals. If an animal has an adverse reaction to treatment, discontinue use and contact your veterinarian.

Properties:

Ermidrà™ Zinc gluconate shampoo for dogs and cats gently and deeply cleanses the skin and hair, rebalancing the physiological cellular state. Zinc gluconate has a soothing (anti-inflammatory) action by reducing the activation of keratinocytes and decreasing the production of TNF; it is also a strong antioxidant. The whey is able to soothe, refresh and rehydrate the skin to help maintain its physiological integrity.

Indications:

Ermidrà™ zinc gluconate shampoo for dogs and cats is indicated:

- for red and inflamed skin (rubbing, hyperreactivity);
- sensitive skin.

Warning: Keep out of reach of children.

Storage: Store at room temperature. Do not freeze.
