Iodine Barrier Teat Dip

FOR INDUSTRIAL USE ONLY

DIRECTIONS:

IMPORTANT: Do not further dilute with water or mix with any other teat dips. If product in dip cup becomes visibly dirty, discard contents and replenish with fresh product. Do not reuse or return any unused product to the original container.

Pre-Milking/Prepping: Using proper cleaning procedures, wash teats with appropriate udder wash solution or pre-dip/spray each teat prior to milking. Teats should then be dried with single-service towels.

Post-Milk Dipping: Using fresh I-deal, dip each teat full-length into the teat dip cup. Do not wipe. Allow to air dry. Do not turn cows out in freezing weather until the product is completely dry.

Expanded Usage: When freshening cows, begin dipping teats twice daily for about 10 days before calving.

PRECAUTION: I-deal is not intended to cure or help the healing of chapped or irritated teats. As with any germicide, irritation or sensitization may occur in sensitive animals. In case of teat irritation or chapping, have the condition examined and, if necessary, treated by a veterinarian.

Consult your Ecolab representative for specific use instructions and recommended dispensing equipment.

KEEP OUT OF REACH OF CHILDREN

WARNING

Causes eye irritation. Wash skin thoroughly after handling.

FIRST AID

Eye Contact: Rinse with plenty of water.

Skin Contact: Rinse with water.

If Swallowed: Rinse mouth. Get medical attention if symptoms occur.

If Inhaled: Get medical attention if symptoms occur.

Ayuda a evitar la proliferación de organismos que pueden causar mastitis

Sellador de barrera para pezones con yodo

PARA USO INDUSTRIAL SOLAMENTE

INSTRUCCIONES:

IMPORTANTE: No lo vuelva a diluir con agua ni lo mezcle con otros productos para baño de pezones. Si el producto del recipiente para realizar el baño está visiblemente sucio, deseché el contenido y rellene el recipiente con producto fresco. No vuelva a utilizar el producto ni vuelva a colocar producto sin usar en el contenedor original.

Pre-ordeño/Preparación: Utilizar procedimientos adecuados para la limpieza, enjuagar cada ubre con la solución de limpieza adecuada o usar una solución en spray o de inmersión, antes de empezar el ordeño. Los pezones deben luego secarse utilizando toallas de uso único.

Sellado del pezón posterior al ordeño: Bañe toda la superficie de cada pezón en un recipiente que contenga I-deal fresco. No utilice paños. Deje secar al aire. No deje las vacas en un clima helado hasta que el producto se haya secado por completo.

Uso ampliado: Si la vaca va a parir, comience a realizar el baño dos veces al día unos 10 días antes del parto.

PRECAUCIÓN: I-deal no está pensado para curar ni ayudar a sanar los pezones agrietados o irritados. Como cualquier germicida, el producto puede causar irritación o sensibilización en los animales sensibles. Si los pezones están agrietados o irritados, encargue a un veterinario que examine la condición y la trate si es necesario.

Consulte con su Representante de ECOLAB para obtener instrucciones específicas sobre el uso y el equipo dispensador recomendado.

MANTÉNGASE FUERA DEL ALCANCE DE LOS NIÑOS

ATENCIÓN

Provoca irritación ocular. Lave la piel minuciosamente después del manejo.

PRIMEROS AUXILIOS

Contacto con los ojos: Enjuague con mucha agua.

Contacto con la piel: Enjuague con agua.

En caso de ingestión: Enjuague la boca. Consultar un médico si los síntomas aparecen.

En caso de inhalación: Consultar un médico si los síntomas aparecen.
