KEEP OUT OF REACH OF CHILDREN

FOR INDUSTRIAL USE ONLY

NOT FOR HUMAN USE

Read other label for directions for use, first aid and precautionary statements

Wash hands thoroughly after handling. Get medical advice/attention if you feel unwell.

DIRECTIONS:

IMPORTANT: Do not further dilute with water or mix with any other teat dips. If product in dip cup becomes visibly dirty, discard contents and replenish with fresh product. Do not reuse or return any unused product to the original container.

Udder Prep: When using an udder wash step before milking, make sure to wash teats with appropriate udder wash solution using proper cleaning procedures. Teats should then be dried with single-service towels.

Directions for Teat Dipping

Pre-Milk Dipping: Before each cow is milked, and using fresh Eco-Plus 100 S.A., dip each teat full-length into the teat dip cup. Wipe teats after dipping using single-service towels to avoid contamination of milk.

Post-Milk Dipping: Using fresh Eco-Plus 100 S.A., dip each teat full-length into the teat dip cup. Do not wipe. Allow to air dry. Do not turn cows out in freezing weather until the product is completely dry.

Directions for Teat Spraying

Pre-Milk Spraying: Before each cow is milked, and using fresh Eco-Plus 100 S.A., spray entire teat. Wipe teats after dipping using single-service towels to avoid contamination of milk.

Post-Milk Spraying: Using fresh Eco-Plus 100 S.A., spray entire teat immediately after each milking. Do not wipe. Allow to air dry. Do not turn cows out in freezing weather until the product is completely dry.

Expanded Usage: When freshening cows, begin dipping teats twice daily for about 10 days before calving.

PRECAUTION: Eco-Plus 100 S.A. is not intended to cure or help the healing of chapped or irritated teats. As with any germicide, irritation or sensitization may occur in sensitive animals. In case of teat irritation or chapping, have the condition examined and, if necessary, treated by a veterinarian.

Consult your Ecolab representative for specific use instructions and recommended dispensing equipment.

FIRST AID

Eye Contact: Rinse with plenty of water.

Skin Contact: Rinse with water.

Ingestion: Rinse mouth. Get medical attention if symptoms occur.

Inhalation: Get medical attention if symptoms occur.

Ayuda a evitar la proliferación de organismos que pueden causar mastitis

Desinfectante sellador de pezones

PARA USO INDUSTRIAL SOLAMENTE

INSTRUCCIONES:

IMPORTANTE: No lo vuelva a diluir con agua ni lo mezcle con otros productos para baño de pezones. Si el producto del recipiente para realizar el baño está visiblemente sucio, deseché el contenido y rellene el recipiente con producto fresco. No vuelva a utilizar el producto ni vuelva a colocar producto sin usar en el contenedor original.

Preparado para uñes: Si se realiza un paso de limpieza de uñes antes del ordeño, asegúrese de limpiar los pezones con una solución para limpieza de uñes adecuada y procedimientos de limpieza apropiados. Los pezones deben secarse con toallas de uso único.

Instrucciones para el sellado de pezones

Sellado del pezón previo al ordeño: Antes de ordeñar cada vaca, bañe toda la superficie de cada pezón en un recipiente que contenga Eco-Plus 100 S.A. fresco. Limpie los pezones con toallas de uso único luego del baño para evitar la contaminación de la leche.

Sellado del pezón posterior al ordeño: Bañe toda la superficie de cada pezón en un recipiente que contenga Eco-Plus 100 S.A. fresco. No utilice paños. Deje secar al aire. No deje las vacas en un clima húmedo hasta que el producto se haya secado por completo.

Instrucciones para el rociado de pezones

Rociado previo al ordeño: Antes de ordeñar cada vaca, rocíe toda la superficie de cada pezón con Eco-Plus 100 S.A. fresco. Limpie los pezones con toallas de uso único luego del baño para evitar la contaminación de la leche.

Rociado de pezones posterior al ordeño: Inmediatamente después del ordeño, rocíe toda la superficie de cada pezón con Eco-Plus 100 S.A. fresco. No utilice paños. Deje secar al aire. No deje las vacas en un clima húmedo hasta que el producto se haya secado por completo.

Uso ampliado: Si la vaca va a parir, comience a realizar el baño dos veces al día unos 10 días antes del parto.

PRECAUCIÓN: Eco-Plus 100 S.A. no está pensado para curar ni ayudar a sanar los pezones agrietados o irritados. Como cualquier germicida, el producto puede causar irritación o sensibilización en los animales sensibles. Si los pezones están agrietados o irritados, encárgue a un veterinario que examine la condición y la trate si es necesario.

Consulte con su representante de Ecolab para obtener instrucciones específicas sobre el uso y el equipo dispensador recomendado.

MANTÉNGASE FUERA DEL ALCANCE DE LOS NIÑOS

Lavarse las manos cuidadosamente después de la manipulación. Consultar a un médico si la persona se encuentra mal.

PRIMEROS AUXILIOS

Contacto con los ojos: Enjuague con mucha agua.

Contacto con la piel: Enjuague con agua.

Ingestión: Enjuague la boca. Consultar un médico si los síntomas aparecen.

Inhalación: Consultar un médico si los síntomas aparecen.
