

HYDROCORTISONE- antipruritic (anti-itch) ointment
BluePoint Laboratories

Hydrocortisone Ointment, USP 1%

Drug Facts

Active ingredient

Hydrocortisone Acetate USP 1%

Purpose

Antipruritic (Anti-Itch)

Uses

For temporary relief of itching associated with minor skin irritations, inflammation, and rashes due to eczema, insect bites, poison ivy, poison oak, poison sumac, soaps, detergents, cosmetics, jewelry, seborrheic dermatitis, psoriasis, and for external genital, feminine, and anal itching.

Warnings

For external use only

If pregnant or breast-feeding,

ask a health professional before use

Do not use

- in the eyes
- for diaper rash
- for external genital or feminine itching if you have a vaginal discharge
- more than the recommended daily dosage unless directed by a doctor
- this product in the rectum by using fingers or any mechanical device or applicator

Ask a doctor before use if you are using any other hydrocortisone product

Stop use and ask a doctor if

- Condition worsens, or if symptoms persist for more than 7 days or clear up and occur again within a few days. Do not continue to use this or any other hydrocortisone product for longer than 7 days, or if bleeding occurs near anus when used for anal itching

Keep out of reach of children

If swallowed, get medical help or contact a Poison Control Center right away.

Directions

- Adults and children 2 years of age and older: Apply to affected area not more than 3 to 4 times daily. Children under 2 years of age: consult a doctor.
- When used for anal itching, cleanse the affected area with mild soap and warm water and rinse thoroughly. Gently dry, patting or blotting with bathroom tissue or soft cloth before applying.
- Children under 12: consult a doctor before using for anal itching.
