# **KEEP OUT OF REACH OF CHILDREN**

# NOT FOR HUMAN USE

# WARNING

Causes eye irritation

Wash skin thoroughly after handling. Do not mix with bleach or other chlorinated products – will cause chlorine gas.

# **DIRECTIONS:**

**IMPORTANT:** Do not further dilute with water or mix with any other teat dips. If product in dip cup becomes visibly dirty, discard contents and replenish with fresh product. Do not reuse or return any unused product to the original container.

**Udder Prep:** When using an udder wash step before milking, make sure to wash teats with appropriate udder wash solution using proper cleaning procedures. Teats should then be dried with single-service towels.

# **Directions for Teat Dipping**

**Pre-Milk Dipping:** Before each cow is milked, and using fresh Chem-Star Sentinel Plus, dip each teat full-length into the teat dip cup. Wipe teats after dipping using single-service towels to avoid contamination of milk.

**Post-Milk Dipping:** Using fresh Chem-Star Sentinel Plus, dip each teat full-length into the teat dip cup. Do not wipe. Allow to air dry. Do not turn cows out in freezing weather until the product is completely dry.

# **Directions for Teat Spraying**

**Pre-Milk Spraying:** Before each cow is milked, and using fresh Chem-Star Sentinel Plus, spray entire teat. Wipe teats after dipping using single-service towels to avoid contamination of milk.

**Post-Milk Spraying:** Using fresh Chem-Star Sentinel Plus, spray entire teat immediately after each milking. Do not wipe. Allow to air dry. Do not turn cows out in freezing weather until the product is completely dry.

**Expanded Usage:** When freshening cows, begin dipping teats twice daily for about 10 days before calving.

**PRECAUTION:** Chem-Star Sentinel Plus is not intended to cure or help the healing of chapped or irritated teats. As with any germicide, irritation or sensitization may occur in sensitive animals. In case of teat irritation or chapping, have the condition examined and, if necessary, treated by a veterinarian.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/ attention.
