### **NuRinse Hand Sanitizer HOCL Aloe and Vitamin E Gel**

The hand sanitizer is manufactured using only the following United States Pharmacopoeia (USP) grade ingredients in the preparation of the product (percentage in final product formulation) consistent with World Health Organization (WHO) recommendations:

- a. HOCL 385ppm
- b. Sterile distilled water or boiled cold water.

The firm does not add other active or inactive ingredients. Different or additional ingredients may impact the quality and potency of the product.

HOCl solutions are already included in the WHO list of coronavirus-effective biocides, and in the US EPA 'N' list of disinfecting agents able to control emerging pathogens like SARS-CoV-2. 37,126 More than ten branded aqueous HOCl formulations have been cleared by the US FDA for topical use in wound management over the last decade. A Class III medical product approval for HOCl has been granted in the EU, and the Japanese Ministry of Health has approved use of HOCl for topical medical applications. The US FDA has approved HOCl for high level disinfection and sterilization of medical instruments, including those for use at critical (i.e., sterile) sites

### **Active Ingredient(s)**

HOCL 385ppm Purpose: Antiseptic

### **Purpose**

Antiseptic, Hand Sanitizer
