Levoxine™ Powder

A Palatable Supplement for the Correction of Conditions Associated with Hypothyroidism in Horses and Ponies.

WARNING: Federal law restricts this drug to use by or on the order of a licensed veterinarian.
For Animal Use Only • Keep Out of Reach of Children

INDICATIONS:

For use in horses and ponies for correction of conditions associated with low circulating thyroid hormone (hypothyroidism).

DOSAGE:

Doses should be individualized and animals should be monitored daily for clinical signs of hyperthyroidism or hypersensitivity. Suggested initial doses are 1-10 mg levothyroxine sodium (T₄)/100 lb body weight (2-20 mg/100 kg) once per day or in divided doses. Response to the administration of Levoxine™ Powder should be evaluated clinically every week until an adequate maintenance dose is established. In most horses, this is usually in the range of 35 to 100 mg total daily dose of T₄ (1-3 level tablespoonfuls Levoxine™ Powder).

INGREDIENTS:

Each pound (453.6 g) contains:

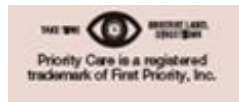

Levothyroxine Sodium USP 0.22% (1.0 g)

One level teaspoonful contains 12 mg of T₄; one level tablespoonful contains 36 mg of T₄.

WARNING: Administer with caution to animals with clinically significant heart disease, hypertension or other complications for which a sharply increased metabolic rate might prove hazardous. Use in pregnant mares has not been evaluated.

STORAGE: Store at controlled room temperature between 15° - 30°C (59° - 86°F). Keep container tightly closed when not in use.

USE ONLY AS DIRECTED

Net Contents:

1 lb (453.6 grams), Reorder No. NS190PC

10 lb (4.5 kg), Reorder No. NS191PC

USE ONLY AS DIRECTED

Made in U.S.A.
