Do you compost at home?
Dove wipes meet ASTM D6400 standards for compostability and are designed to be home compostable. A big deal for wipes, but just one step towards progress.
Dove wipes are not intended for industrial composting. Do not compost packaging.

- 5 easy steps for success:
1. Find a dry and shady area for bin or pile.
 2. Mix brown materials (e.g. sawdust, cardboard, cotton, wood chips) with green materials (e.g. leaves, food waste, coffee grounds).
 3. Add water to ensure compost stays moist, not wet.
 4. Regularly turn compost to ensure aeration.
 5. When the pile is consistently decomposed, add to your garden and enjoy!
