

MASTICARE- lactic acid, salicylic acid solution
Ecolab Inc.

Disclaimer: This drug has not been found by FDA to be safe and effective, and this labeling has not been approved by FDA. For further information about unapproved drugs, [click here](#).

FOR INDUSTRIAL USE ONLY

KEEP OUT OF REACH OF CHILDREN

NOT FOR HUMAN USE

WARNING

Causes eye irritation. Wash skin thoroughly after handling. Do not mix with bleach or other chlorinated products - will cause chlorine gas.

DIRECTIONS:

IMPORTANT: Do not further dilute with water or mix with any other teat dips. If product in dip cup becomes visibly dirty, discard contents and replenish with fresh product. Do not reuse or return any unused product to the original container.

Udder Prep: When using an udder wash step before milking, make sure to wash teats with appropriate udder wash solution using proper cleaning procedures. Teats should then be dried with single-service towels.

Directions for Teat Dipping

Pre-Milk Dipping: Before each cow is milked, and using fresh Masticare Pre & Post, dip each teat full-length into the teat dip cup. Wipe teats after dipping using single-service towels to avoid contamination of milk.

Post-Milk Dipping: Using fresh Masticare Pre & Post, dip each teat full-length into the teat dip cup. Do not wipe. Allow to air dry. Do not turn cows out in freezing weather until the product is completely dry.

Expanded Usage: When freshening cows, begin dipping teats twice daily for about 10 days before calving.

PRECAUTION: Masticare Pre & Post is not intended to cure or help the healing of chapped or irritated teats. As with any germicide, irritation or sensitization may occur in sensitive animals. In case of teat irritation or chapping, have the condition examined and, if necessary, treated by a veterinarian.

Consult your Ecolab representative for specific use instructions and recommended dispensing equipment.

FIRST AID

IN CASE OF EYE CONTACT: Rinse with plenty of water.

IN CASE OF SKIN CONTACT: Rinse with water.

IF SWALLOWED: Rinse mouth. Get medical attention if symptoms occur.

IF INHALED: Get medical attention if symptoms occur.

• Ayuda a evitar la proliferación de organismos que pueden causar mastitis

PARA USO INDUSTRIAL SOLAMENTE

MANTÉNGASE FUERA DEL ALCANCE DE LOS NIÑOS

NO ES PARA USA HUMANO

INSTRUCCIONES:

IMPORTANTE: No lo vuelva a diluir con agua ni lo mezcle con otros productos para baño de pezones. Si el producto del recipiente para realizar el baño está visiblemente sucio, deseche el contenido y rellene el recipiente con producto fresco. No vuelva a utilizar el producto ni vuelva a colocar producto sin usar en el contenedor original.

Preparado para ubres: Si se realiza un paso de limpieza de ubres antes del ordeño, asegúrese de limpiar los pezones con una solución para limpieza de ubres adecuada y procedimientos de limpieza apropiados. Los pezones deben secarse con toallas de uso único.

Instrucciones para el sellado de pezones

Sellado del pezón previo al ordeño: Antes de ordeñar cada vaca, bañe toda la superficie de cada pezón en un recipiente que contenga Masticare Pre & Post fresco. Limpie los pezones con toallas de uso único luego del baño para evitar la contaminación de la leche.

Sellado del pezón posterior al ordeño: Bañe toda la superficie de cada pezón en un recipiente que contenga Masticare Pre & Post fresco. No utilice paños. Deje secar al aire. No deje las vacas en un clima helado hasta que el producto se haya secado por completo.

Uso Expandido: Al refrescar a las vacas, comience con un baño antiséptico de sus pezones dos veces por día por aproximadamente 10 días antes de parir.

PRECAUCIÓN: Masticare Pre & Post no está diseñado para curar o ayudar con la cicatrización de los pezones agrietados o irritados. Como cualquier otro germicida, puede provocar irritación o sensibilización en animales sensibles. En caso de irritación o agrietamiento de los pezones, haga examinar dichas afecciones y, de ser necesario, hágalas tratar con un veterinario.

Consulte con su Representante de Ecolab para obtener instrucciones específicas sobre el uso y el equipo dispensador recomendado.

ATENCIÓN

Lave la piel minuciosamente después del manejo. No se mezcle con el blanqueo o otros productos tratados con cloro - causará el gas de cloro.

PRIMEROS AUXILIOS

EN CASO DE CONTACTO CON LOS OJOS: Enjuague con mucha agua.

EN CASO DE CONTACTO CON LA PIEL: Enjuague con agua.

EN CASO DE INGESTIÓN: Enjuague la boca. Consultar un médico si los síntomas aparecen.

EN CASO DE INHALACIÓN: Consultar un médico si los síntomas aparecen.
