Maracyn Oxy

PROVIDES RELIEF FROM TRUE FUNGAL INFECTIONS

FUNGUS

FIN & TAIL ROT

FUNGAL INFECTIONS

A non-antibiotic solution for the treatment and control of the symptoms associated with common bacterial and fungal infections of fresh and saltwater fish. Not safe for invertebrates.

Symptoms:

FUNGUS: Whitish tufts of cotton-like material found on fins, tail and/or body at sites of injury.

BACTERIAL DISEASES: Clamped fins, swollen eyes, patchy coloration, heavy or rapid breathing

INSTRUCTIONS: 1/2 capful (1/2 tsp/2.4mL) per 10 gallons (38 liters) of water.

Repeat daily as needed for more than five days.

It is suggested to always increase tank aeration during treatment to ensure there is an adequate oxygen supply for infected fish. Turn off UV Sterilizers during treatment. Should fish exhibit signs of distress, neutralize the medication by using an aquarium dechlorinator (like FritzGuard), follow manufacturers directions for dosing. Use of a hospital tank is recommended. No water changes, pH or temperature adjustments necessary if readings are in ideal range. Maintain normal filtration.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. For aquarium use only

PRECAUTIONS: Remove invertebrates from tank. Do not overdose.

THIS PRODUCT IS INTENDED FOR THE EXCLUSIVE USE WITH ORNAMENTAL FISH AND/OR OTHER ORNAMENTAL ORGANISMS AND IS NOT INTENDED FOR USE WITH OTHER ANIMALS, HUMANS OR FISH FOR HUMAN CONSUMPTION.

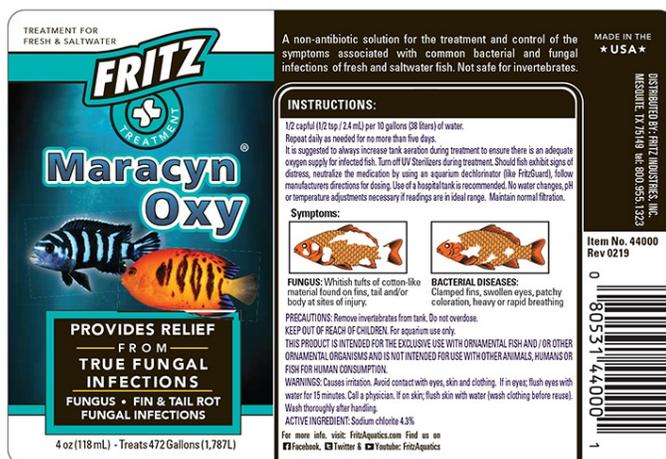

ACTIVE INGREDIENT: Sodium Chlorite 4.3%

16 oz (473 mL) - Treats 1,888 Gallons (7,147 L)

4 oz (118 mL) - Treats 472 Gallons (1,787L)

WARNINGS: Causes irritation. Avoid contact with eyes, skin and clothing. If in eyes; flush with water for 15 minutes. Call a physician. If on skin; flush with water (wash clothing before reuse) thoroughly after handling.
