Package Labeling:

SPRAY RELIEF™
Formulated for Superior Performance

Dermatologist Tested
and Approved

10 FL OZ (295 mL)

Spray Relief™ is formulated for longer lasting, powerful pain relief. Keep moving, keep active, keep pain at bay. **Spray Relief** is the only topical analgesic that uses solubilized crystalline menthol, providing long lasting relief without the side effects of ingestible analgesics. Directional 360° spray targets directly at the pain source.

Solubilized Crystalline Menthol + Glycerin = activation and reactivation of the pain relieving menthol, at levels that do not burn the skin or create malodor. Movement and sweating reactivates the crystals which remain on the skin ready for reactivation. Combining with compression gear contains the moisture for up to 8 hours of relief.

***Don't be sidelined from aches and pains.
Spray Relief.***
