Aspirin 500 mg (NSAID)*

Caffeine 32.5 mg

*nonsteroidal anti-inflammatory drug

Purpose

Pain reliever

Pain reliever aid

Uses

for the temporary relief of

- backache pain
- muscle aches and pains
- minor aches and pains of arthritis

Warnings

Reye's syndrome: Children and teenagers who have or are recovering from chicken pox or flu-like symptoms should not use this product. When using this product, if changes in behavior with nausea and vomiting occur, consult a doctor because these symptoms could be an early sign of Reye's syndrome, a rare but serious illness.

Allergy alert:

Aspirin may cause a severe allergic reaction which may include:

- hives
- shock
- facial swelling
- asthma (wheezing)

Stomach bleeding warning:

This product contains an NSAID, which may cause severe stomach bleeding. The chance is higher if you

- take more or for a longer time than directed
- take a blood thinning (anticoagulant) or steroid drug
- are age 60 or older
- have 3 or more alcohol drinks every day while using this product

- have had stomach ulcers or bleeding problems

- take other drugs containing prescription or nonprescription NSAIDs (aspirin, ibuprofen, naproxen, or others)

Do not use

- if you are allergic to aspirin or any other pain reliever/fever reducer.

- if you have ever had an allergic reaction to this product or any of its ingredients

Ask a doctor before use if

- stomach bleeding warning applies to you

- you have a history of stomach problems, such as heartburn

- you have asthma

- you have high blood pressure, heart disease, liver cirrhosis, or kidney disease

- you are taking a diuretic

Ask a doctor or pharmacist before use if you are taking a prescription drug for

- gout

- diabetes

- arthritis

Stop use and ask a doctor if

- an allergic reaction occurs. Seek medical help right away.

- you experience any of the following signs of stomach bleeding: ■ vomit blood ■ have bloody or black stools ■ feel faint ■ have stomach pain that does not get better

- ringing in the ears or a loss of hearing occurs

- pain gets worse or lasts more than 10 days

- fever gets worse or lasts more than 3 days

- redness or swelling is present

- new symptoms occur

These could be signs of a serious condition.

If pregnant or breast-feeding, ask a health professional before use. It is especially important not to use aspirin at 20 weeks or later in pregnancy unless specifically directed to do so by a doctor because it may cause problems in the unborn child or complications during delivery.

Keep out of reach of children. In case of overdose, get medical help or contact a Poison Control Center (1-800-222-1222) right away.

Directions

- **drink a full glass of water with each dose**

Adults and children: (12 years and over) take 2 caplets every 6 hours, not to exceed 8 caplets in 24 hours

Other information

- store at 77°F (25°C) excursions permitted between 59°-86°F (15°-30°C)
- tamper evident sealed packets
- do not use any opened or torn packets

corn starch, hypromellose, maltodextrin, microcrystalline cellulose, polyethylene glycol, sodium lauryl sulfate
