PainElimin is an extra-strong pain relief gel to help with the temporary relief of minor aches and pains of muscles, and joints associated with simple backache, arthritis, strains, bruises, and sprains. PainElimin contains 25 herbal extracts that are compounded based on a traditional Swiss formula. The massage with the gel induces strong perfusion, increasing the effect of the active substances and speeding up the recovery. The main herbs are:
Horse chestnut – Which contains active substances such as aescin, tannins, and flavonoid glycosides. These components increase vessel walls elasticity, encourage circulation and venous discharge, and eliminate swelling.
Comfrey – The main ingredient is allantoin, which supports regeneration of tissue.
Common juniper – Activates the lymphatic system, helping remove toxic substances. It effectively speeds up regeneration.

Active Ingredients

Active Ingredients	Purpose
Menthol 2%	Topical Analgesic
Camphor 3%	Topical Analgesic

Uses Temporary relief from minor aches and pains of sore muscles and joints associated with arthritis, simple backache, bruises, strains, and sprains.
