Acne/Pimple Control generally works within a week or two, but the healing time may be longer or shorter depending on possible factors, such as:

- Symptom severity - Chronic acne can take longer to treat.
- How long the outbreak has been there - The longer the symptom has been present the longer the treatment will take.
- Your application schedule - Acne/Pimple Control should be applied at least 2-3 times every day after cleaning the area with warm soapy water.
