***Uses***

- Helps relieve the anorectal symptoms associated with hemorrhoids (pain, soreness, burning)
- Temporarily reduces the swelling associated with irritated hemorrhoidal tissue and other anorectal disorders

***Warnings***

**For external use only**

**Ask a doctor before use if you have**

- heart disease
- high blood pressure
- thyroid disease
- diabetes
- difficulty in urination due to enlargement of the prostate gland

**Ask a doctor or pharmacist before use if you are** presently taking a prescription drug for high blood pressure or depression.

**When using this product**

- do not exceed the recommended daily dosage unless directed by a doctor
- do not put into the rectum by using fingers or any mechanical device or applicator

**Stop use and ask a doctor if**

- bleeding occurs
- condition worsens or does not improve within 7 days
- an allergic reaction develops
- the symptom being treated does not subside or if redness, irritation, swelling, pain, or other symptoms develop or increase

**If pregnant or breast-feeding,** ask a health professional before use.

**Keep out of reach of children.** If swallowed, get medical help or contact a Poison Control Center right away.

***Directions***

- Adults: when possible, clean affected area with mild soap or warm water, rinse thoroughly, and then gently dry (patting or blotting) with tissue or soft cloth before use
- To use applicator, attach it to the tube, lubricate well, then gently insert part way into anus and squeeze tube to deliver medication. Thoroughly cleanse applicator after use with mild soap and warm water and rinse thoroughly
- Apply externally to the affected area up to 4 times daily, especially at night, when waking up and after each bowel movement
- Children under 12 years of age: ask a doctor
