Desert Sun Protection Broad Spectrum SPF30

Extreme environments call for extreme protection.

Desert Sun Protection was created with one thought in mind: to combat the over 205 days of direct sunlight in the Treasure Valley.

As medical skin professionals, we recognized that the unique desert environment of the Treasure Valley needed a sunscreen combined with a moisturizer for daily use.

Desert Sun Protection guards against both UVA and UVB rays, guards against infrared aging, and is free of artificial fragrances, parabens, and oxybenzone, making Desert Sun Protection suitable for sensitive skin.
