new name!
Same great formula as Antioxidant-Infused Sunscreen Day Cream

SPF 40 SKIN SOOTHING MINERAL SUNSCREEN delivers super broad spectrum UV protection with a delicate touch. Developed with olive oil polyphenols, rich in omega-3 and omega-6 fatty acids, and known to calm redness, irritation and inflammation, this lightweight, hypoallergenic, feel-good formula is ideal for even the most sensitive skin types.

SCOOP ON THE GOOP
Originally created for my daughter, Emery, whose skin reacts to almost anything we put on it, a mineral sunscreen is ideal for sensitive skin types. It's a physical UV filter, that rests on the skin's surface, so it is less likely to cause irritation, and, a bonus, it starts protecting immediately upon application.
