

VCF CONTRACEPTIVE- nonoxynol-9 aerosol, foam
APOTHECUS PHARMACEUTICAL CORP

Disclaimer: Most OTC drugs are not reviewed and approved by FDA, however they may be marketed if they comply with applicable regulations and policies. FDA has not evaluated whether this product complies.

VCF® VAGINAL CONTRACEPTIVE FOAM

Drug Facts

Active ingredient

Nonoxynol-9, 12.5%

Purpose

Vaginal contraceptive

Use

for the prevention of pregnancy

Warnings

- **For Vaginal Use Only**
- **Not for rectal (anal) use**

Sexually transmitted disease (STDs) alert

This product does **not** protect against HIV/AIDS or other STDs and may increase the risk of getting HIV from an infected partner.

Do not use if you or your sex partner has HIV/AIDS. If you do not know if you or your sex partner is infected, choose another form of birth control

When using this product

- you may get vaginal irritation (burning, itching or a rash)

Stop use and ask a Doctor if you or your partner get burning, itching, a rash, or other irritation of the vagina or penis

Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.

Contents under pressure. Do not puncture or incinerate container. Do not store above 120° F.

Directions

- before using this product, read the enclosed package insert for complete directions and information
- insert one applicator full of foam in the vagina no more than one hour before each act of intercourse
- if this product is used together with another contraceptive method, there will probably be better protection against pregnancy
- if douching is desired, always wait at least 6 hours after intercourse before douching
- see enclosed instructions for cleaning the applicator after each use

Other Information

- When used correctly every time you have sex, latex condoms greatly reduce, but do not eliminate, the risk of catching or spreading HIV, the virus that causes AIDS.
- Use a latex condom without nonoxynol-9 if you or your sex partner has HIV/AIDS, multiple sex partners, or other HIV risk factors.

Inactive ingredients

benzoic acid, cellulose gum, cetyl alcohol, fragrance, glacial acetic acid, methylparaben, phosphoric acid, polyvinyl alcohol, propellant A-31, propylene glycol, purified water, sorbic acid, stearamidoethyl diethylamine, stearic acid.
