## Walgreens SPF 50 Advanced Clear Complexion Sunscreen

gently protects the sensitive skin of the face and neck from harmful UVA and UVB rays with an innovative, broad-spectrum formula that is free of oxybenzone, octinoxate and parabens, which are known to harm coral reefs. The enhanced antioxidant formula helps counter the effects of environmental stressors that affect the skin's appearance such as smog, pollution, infrared (IR) light and high energy visible (HEV) light — light that penetrates the deeper layers of the skin, causing the formation of free radicals and uneven pigmentation. This lightweight, hypoallergenic moisturizing facial sunscreen features hyaluronic acid and ceramides to help restore the skin's natural moisture barrier.
