### **Drug Facts**

#### **Active Ingredients**

250mg Piperazine base as Piperazine Citrate, per each teaspoon(5ml)

#### **Use**

Effective against large roundworms (Toxocara canis and Toxascaris leonina).

#### **Warnings**

Do not worm a puppy under six weeks of age. Never worm a sick puppy or dog. Consult your veterinarian in the diagnosis, treatment and control of parasitism. Not recommended for dogs under 5 lbs of body weight. Not recommended for pregnant or nursing females. Pets over 1 year old should have recent negative heartworm blood test before de-worming.

#### **Cautions**

Although piperazine has a high degree of safety, an occasional animal may show nausea, vomiting, or muscular tremors. Such side effects are usually associated with over dosage; therefore, the recommended dosage should be followed carefully. If symptoms occur, consult a veterinarian immediately. Keep closed when not in use. Keep this product out of reach of children and pets to avoid unintended consumption.

#### **Directions**

Dogs and puppies (6 weeks and older): 1 tsp per 10 lbs of body weight. After initial dose on day one, do not administer again until day 14. On day 14, repeat initial dose. Then administer every 30 days to prevent reinfestation. Treatment should be given shortly after pet has eaten or with food. Dosage may be given directly or added to food. For multiple pet households, feed directly to individual pet to ensure proper dosage.

#### **Other Information**

Store between 20-25C (68-F).

#### **Inactive Ingredients**

Caramel color, Flavor, Glycerin, Methylparaben, potassium Sorbate, Sugar, Vanillin, Water
