alcohol 65%

Water, Glycerin, Sodium Chloride, lavender oil, coco-betaine, sodium benzoate

two-step method to clean and sanitize the skin  
of the inner nostrils

- protect from excessive moisture
- Avoid freezing and excessive heat above 40° C (104° F)

Inactive Ingredients

- cleans ■ sanitizes

Keep out of reach of children

Adults and children over 12 years of age

Step 1. Cleaning. Open Step 1 packet and hold handle, inserting one swab tip into each nostril. Swab lower interior lining inside the nose in a circular motion 7 times. Handle guard protects against insertion of swab tip beyond the nostrils. Discard.

Step 2. Sanitizing. Repeat Step 1 with Step 2 packet. Discard

Flammable, keep away from fire and flames

For external use only

**WHY THIS WORKS SURGICALLY PROVEN**

Your nose is the main entry point for infection—which is why daily nasal care is as important as washing your hands. My 2-step cleaning and sanitizing method—used in over 2000 nasal procedures with ZERO infections—is now available for anytime, anywhere use... **PolleySwab™**.\*

**HOW THIS WORKS JUST TWO SIMPLE STEPS**

**STEP 1. CLEAN**  
WASH AWAY IRRITANTS & ALLERGENS

Open **Step 1** packet. Remove and hold **PolleySwab™** handle between thumb and index finger.

Insert both swabs—one into each nostril—placing swabs against nostril skin. Rotate swabs in a circular motion 7 times. (Handle guard protects against inserting swab tips too far.)

Discard cleaning swabs. Go to Step 2.

**STEP 2. SANITIZE**  
WIPE OUT BACTERIA & VIRUSES

Open **Step 2** packet. Remove and hold **PolleySwab™** handle between thumb and index finger.

Insert both swabs into cleansed nostrils, placing swabs against the nostril skin. Rotate swabs in circular motion 7 times. Discard sanitizing swabs.
